

Prayer in response to the sermon 10 Jan

*Father we thank you that in this often very dark world in which we live, Jesus is still the light of the world.*

*We thank you for your call upon us – on us as a community of your people, to now be your light in the world – to as it were – poke holes in this world's darkness. Help us please to that every day and all over the place... and in so many different ways, that somehow people will see in us, Jesus, the light of the world. We ask it in Jesus' name. Amen.*
